

¿Con qué ciudad
sueñan los estudiantes
del mundo?

Dreams and Utopias City and Mobility

The future vision of the students

BOGOTÁ

Isabel Arteaga Arredondo
Professor Universidad de Los Andes

For the utopian visions of young people in Bogotá about mobility and the city, surveys were conducted online at Universidad Nacional and the Universidad de los Andes. 95 students, between 18 and 22 years old, who were in the early years of Architecture and Civil Engineering

Ideal City

- What would be the perfect city for you as the imagination, unfettered by "realism"?
Rate it with 5 adjectives

In general, students believe that an ideal is:

- Orderly
- Safe
- Sustainable
- Efficient
- Socially equitable

Transit Modes and Qualities

- Which modes of transit to move you dream in your city or in your neighborhood?
- What kind of "qualities" are you waiting for it?

UNIVERSIDAD NACIONAL			UNIVERSIDAD DE LOS ANDES. ESTUDIANTES DE INGENIERÍA CIVIL			UNIVERSIDAD DE LOS ANDES. ESTUDIANTES DE ARQUITECTURA		
			METRO					
			BICICLETA					
								
Peatonal			Bus			TransMilenio		
								
Bus			TransMilenio			Bus		
								
TransMilenio			Tren			Moto		
								
Moto			Tranvía			Automóvil		
								
Automóvil			Automóvil			Tranvía		
								
			Moto			Peatonal		
								
			Peatonal					

Preferences dreamed transportation modes.

Comfortable
Fast
Safe
Economic
Sustainable
Clean

The tendency was to raise the guarantee for safe mobility, economic and fast was to have a good public transport system was intermodal, integrated along the subway and route buses inclusive, trains, trams, roads for special bicycle lanes restricted to cars and pedestrian walkways quality, which were interconnected and lend full coverage throughout the city.

Perception of Cities

- Iconic Cities

The cities mentioned by the students were diverse, but always appear Barcelona and Paris. All agreed that the model cities are those that were sustainable, they cared for the care of the environment and the welfare of its inhabitants, who could guarantee that the mobility be effective and high technology and public space was a major concern of public policy.

Perception of Cities and Components to Modify:

- Rejected Cities

Bogotá

Ciudad de México

Improvements to the city

- If you had the power to change and improve their city, what would you do? Why?

The city development based on planning
Promoted the improve of the quality life,
public space and urban transit system
(subway, BRT, buses, bicycles, etc)

Priority to high density and compact city,
most green and open spaces, better transit
services....

The students to achieve changes in the city would
implement measures that would reduce socioeconomic
segregation, strengthen and subsidize access for those
most vulnerable to essential public services.

The creation of more green spaces, public spaces and
support for new collective architectural proposals
would also be another strategy to improve the quality
of life of residents.

Likewise , the students considerer necessary educate
the population to generate a sense of ownership of the
city, hoping to dislodge this proper use and care of
resources and services the city provides to its
population.
