

MOVING A CAPITAL CITY TO IMPROVE TRANSPORT CONDITIONS? THE CASE OF JAKARTA

Dr. Hananto Prakoso
Researcher in Ministry of
Transportation
Indonesia

TRANSPORT STUDIES in JAKARTA

1. *The Study on Integrated Transportation Master Plan for Jabodetabek (SITRAM)* project in 2000
2. Jabodetabek Public Transportation Policy Implementation Strategy (JAPTraPIS) in 2010

Travel demand in Jakarta's agglomeration

Year	Number of trips (million/day) in Jakarta's agglomeration (JABODETABEK) - <i>excluding Non Motorized Transport-</i>	Modal share		
		Car	Motor cycle	Public transport
2000 (SITRAM)	23	16%	22%	62%
2010 (JAPTraPIS)	53	20%	53%	27%

Source: SITRAM (2000), JAPTraPIS (2010)

SITRAM: Jakarta will be totally saturated by 2014

The President's proposition

The culmination was in 2010, serious traffic congestion disturbed people's activity

The President's proposition

Moving the capital (economy & government)

Moving the center of government

Improving transport infrastructure

Key Players in Transport Management

Central government

Local authority of Jakarta

Decentralization in 1999

Task of central government is limited

Responsible institution is local authority of Jakarta

Problems of coordination with its neighborhood cities

Need of Super body institution over the local authority

PRO & CONTRA

Political party agrees with the moving of Capital especially center of government

Academician agrees with the moving of Capital

Mayor of Jakarta does not agree with the moving of Capital

PROGRESS
